TIPS and TRICKS

Moving your Shape on the Screen

www.vorum.com

Canada/USA Locations - (800) 461-4353

Other Global Locations - (604) 321-7277

I can't see something the way I want to. What are some tips for moving the shape around on the screen?

ZOOM - Pressing the SHIFT key down while Left-Clicking and dragging the mouse.
(Moving up, zooms in. Moving down, zooms out)

PAN - Pressing the SPACE bar down while Left-Clicking and dragging the mouse.
(This will PAN, or move the shape around, side to side and up and down)

ROTATE - Pressing the CTRL key down while Left-Clicking and dragging the mouse.
(This rotates the shape about a central point in the shape)

If you need further assistance with your *Canfit*[™] products , please contact the Vorum support department. Email: support@vorum.com Phone: 1-604-321-7277
